Centrica subsidiary Spirit Energy has closed the sale of its oil and gas exploration and production portfolio, including the Statfjord field in Norway, for \$1.1bn.. Spirit Energy's Norwegian assets have been offloaded to Sval Energi while subsidiaries of Equinor acquired Spirit Energy's interests in the Statfjord field.

Gas from these fields is commingled at the Spirit-operated Chiswick Normally Unmanned Installation (NUI) and transported to the J6A platform via an 18 km, 10-inch pipeline. Similarly, the Grove field, where Spirit holds a 92.5% equity interest, also commenced production in 2007.

Our vision, as an energy transition company, will lead the way to a sustainable future by achieving Net Zero (Scope 1 and 2 emissions) by 2035, and materially contribute to the wider UK net zero challenge through our Morecambe Net Zero business. We also intend to explore how our assets can be repurposed to generate net zero carbon energy.

Spirit Energy has been awarded the operator award for Excellence in Decommissioning at the annual Offshore Energies UK (OEUK) Decommissioning Conference in St Andrews. ... Decommissioning is one of our strategic pillars alongside energy transition and production, which will remain a strong focus into the future vision of our business ...
