

Overview. Capstone's green energy solutions align perfectly with the needs of mission-critical businesses. Because of the potentially catastrophic consequences of system failure, momentary or otherwise, certain high demand power users, including high technology, health care and information systems facilities require higher levels of reliability in their power generation service.

Headquartered in Houston, Texas and with locations throughout our territory, Lone Star Power Solutions is responsible for over 40 Megawatts of installed microturbines. The company maintains a dedicated staff of application engineers, sales and marketing, customer service, and Capstone Certified Technicians that are located throughout its territory.

Derived through advanced engineering based on proven turbine design, microturbines represent a watershed energy management solution. Transforming the way businesses think about energy production, Capstone solutions reduce energy costs, ensure power availability, and help preserve the environment with its near-zero emissions profile.
