

Grid management functions for dynamic grid support Integrated voltage supply for internal consumption and external loads With an output of up to 3960 kVA and system voltages up to 1500 V DC, the SMA Sunny Central Storage allows for more efficient and flexible system design for battery power plants.

As a global medium-voltage solution, the Sunny Central UP is the core of our turnkey system for PV power plants. It has been developed for worldwide use and complies with the highest international security standards. The Sunny Central UP Plug & Play System combines central inverter, transformer and storage solution in a compact unit.

True 1,500 V DC technology and our improved intelligent cooling system OptiCool(TM) ensure smooth operation even at extreme temperatures and with a service life of 25 years. As a global medium-voltage solution, the Sunny Central UP is the core of our turnkey system for PV power plants.

SMA's most powerful system with an output power of up to 4,600 kVA for large-scale PV plants offers the advantage of 17% to 54% fewer inverters. With the Sunny Central UP, you benefit from significant cost reductions on transportation, installation, commissioning and service.

Battery inverters for large scale storage systems. With an output of up to 3960 kVA and system voltages up to 1500 V DC, the SMA Sunny Central Storage allows for more efficient and flexible system design for battery power plants.

Sunny Central UP??????????????????????????????? ??????,????????????????????

Battery inverter for large-scale storage systems. With an output of up to 3960 kVA and system voltages up to 1500 V DC, the SMA Sunny Central Storage allows for more efficient and flexible system design for battery power plants. A separate ...

Sunny Boy Storage 2.5; Sunny Boy Storage 3.7 / 5.0 / 6.0; Sunny Island X; Sunny Island 4.4M / 6.0H / 8.0H; Sunny Island 4548-US / 6048-US; Sunny Central Storage 1900 / 2200 / 2475 / 2900; Sunny Central Storage UP; Sunny Central ...

The Sunny Central UP Plug & Play System combines central inverter, transformer and storage solution in a compact unit. In addition to facilitating transportation, the system enables fast and trouble-free project commissioning in the power plant.

The Sunny Beam monitoring system of SMA provides an aesthetic wireless monitoring of the installation. It is cheap, effective and works with SMAs inverters. For instantaneous power or daily, monthly or total yield, you can count on a ...
