Green Revolution Ltd provides solar energy saving solutions and advice to the Turks and Caicos Islands, Bahamas, and Caribbean region. We specialize in renewable solar energy and cutting edge solutions that save our clients money

Our climate here in the Turks and Caicos islands is unique. With little rainfall (30 inches/year) salty tradewinds and limestone soil, many of the large tropical trees of our neighboring islands to the south struggle here. However, there is a good selection of well adapted leaf trees to choose from to provide life and energy to your garden.
