

What is an electric ceiling pull-down bed?

This electric ceiling pull-down bed helps save valuable floor space within a room. During the daytime, it can be lifted toward the ceiling, making space for conventional furniture items like shelves, dressers, tables, and chairs underneath.

What is a retractable bedup &#174; cocoon?

The retractable bedUp&#174; Cocoon is suspended by 2 technical straps. It gives the model a canopy bed look. Fixed to the ceiling, it does not require a load-bearing wall. The counterweight makes handling the frame structure very easy. Also available in electric version. Symphony side bookcase Strap colors

How do the retractable legs of the bedup&#174; work?

The retractable legs of the bedUp&#174; fold out from the underside of the mobile frame structure into which they disappear when the bed is stored. Due to their design, they provide the frame structure with great stability. At the head of the bed, the top rests on 2 fixed supports placed inside the wall structure.

What is a ceiling retractable bed?

The ceiling retractable bed comes with a choice of a sofa or table (which is left behind on the floor when the bed is fixed into the ceiling by the day). The ceiling and bed are fashioned in wood to create a classy look that doesn't give away the fact that something is hiding right above the head.

How long does it take to ship a retractable bedup&#174;?

We can ship your retractable bedUp&#174; anywhere in Europe within 4 to 6 weeks depending on available stock. Everything you need to know about the delivery and installation of our retractable ceiling bed is here. The retractable bedUp&#174; Cocoon is suspended by 2 technical straps. It gives the model a canopy bed look.

How does the bedup&#174; vision ceiling bed work?

The frame structure of the bedUp&#174; Vision ceiling bed is equipped with a strong fixed slatted base that rests on the interior joists. The mattress must be on site on the day of installation to proceed with the balancing of the frame structure. The bedUp&#174; Cocoon model is suspended by two highly tensile technical straps.
