Powered by Sieyuan Electric Co., Ltd. ... During transportation, take precautions to protect the battery pack and its components. Ensure that transportation personnel are trained and record all transportation operations. Keep the equipment. SieB-H(9600~25K6)-F

Swatten also plans to expand a 300-acre module pack and PCS production base by the end of 2024 and add a 240-acre battery production unit, with an annual production capacity of 1GW. These expansions are designed to optimize our production processes, upholding our commitment to excellence in quality and reliability.

SWATTEN, a subsidiary of Sieyuan Electric, specialises in solar inverters and battery energy storage systems for residential and small-scale commercial clients. SWATTEN serves markets in Europe, the Middle East, and Oceania. Swatten's F1 Series is a stackable Battery Energy Storage System (BESS) designed for residential and small commercial use.

Swatten's operations boast two state-of-the-art 5,000-square-meter production facilities, housing two automated module pack production lines and two PCS units, inclusive of our bespoke SMT.
