

As a first step in assessing the potential of thermal energy storage in Swedish buildings, the current situation of the Swedish building stock and different storage methods are discussed in ...

Ingrid Capacity - which builds energy storage at critical locations in the electricity grid - is now entering the final stage for six facilities at different locations in Sweden, with a ...

Retired mines can play a crucial part in securing a missing piece of the puzzle for a sustainable energy system, namely an economical and scalable solution for long duration ...

Vår vision är att det framtida energisystemet kommer att vara hållbart och att elsystemet spelar en avgörande roll i förverkligandet av ett samhälle baserat på 100 % förnybar energi. Elsystemet ...

The literature study investigates the Swedish electrical infrastructure's structure and its existing and upcoming challenges. It investigates the spectrum of energy storage systems (ESS) to ...

Intermittency is growing on the Swedish grid as more renewable energy sources come online, and the capacity of the country's existing large pumped hydro energy storage (PHES) portfolio to balance this is being ...

Energy-related CO2 emissions keep rising internationally\* and with increased urbanisation and electrification, this trend seems to continue. There are, however, innovative solutions that can help change this. In the ...

Axpo commissioned its first large-scale battery storage facility in Sweden. It was connected to the grid in Landskrona, in the south of the country. The 20MW/20MWh plant, connected to the electricity grid by local energy ...

The use of pit thermal energy storages (PTES) enables higher solar fraction in district heating networks by counteracting the mismatch between heat demand and production in solar district ...

Sweden's large-scale BESS market. Diklev says the market kicked off with "exceptional" prices in the ancillary services market in early 2021, of EUR70-80 per MW per hour, as well as an energy reservoirs pilot programme ...

Swedish energy storage company Ingrid Capacity, the market leader in the Nordics, secures approx. SEK 1bn of investments from BW Energy Storage Systems (BW ESS), a part of BW Group, to accelerate growth and ...

The electricity network company Ellevio is diversifying its business to help industry and companies become

fossil-free through electrification. The first investment is Sweden's largest Battery Energy Storage Solution (BESS) that ...

Retired mines can play a crucial part in securing a missing piece of the puzzle for a sustainable energy system, namely an economical and scalable solution for long duration energy storage (LDES). Their large-scale ...
