Custom Fabrication Material: The material used to fabricate a piece of equipment can affect its pricing, ease of maintenance, and longevity. This is why we mostly use high-grade NEMA 3R-rated steel variants, including carbon and stainless steel, for 98% of our MCC cabinets. Steel is cost-effective, easy to maintain, and can withstand harsh weather conditions.

Benefits of Using Air Conditioners for Electrical Cabinets Enhanced Equipment Lifespan. Air conditioners help your equipment last longer. They prevent overheating, which can damage parts. By keeping things cool, they extend the life of your devices. Preventing Overheating. Overheating is a big problem for electrical equipment.
