

Who owns the gas pipeline in Tbilisi?

Tbilisi Energy is the largest distribution system operator in Tbilisi, with a 24.87% share of the retail market. 1 Many private companies are involved in gas retail. GGTCo operates the main gas pipeline system, except the Georgian section of the SCP, which is operated by SOCAR.

Is Tbilisi a republic or a state?

Tbilisi is Georgia's capital and largest city, and the country covers a territory of 69 700 square kilometres (km²) with a population of 3.7 million. It is a unitary semi-presidential republic, with the government elected through a system of representative democracy.

Does Georgia have a strategy for energy supply disruptions?

The Law on the State of Emergency (2005) defines and regulates emergency response, but Georgia has no declared strategy for emergency stockholding or fuel switching mechanisms for energy supply disruptions. The government estimates that Georgia's minimum strategic reserve for gas should be 120 mcm and is considering various storage options.

How do gas imports reach Georgia from Azerbaijan?

More gas imports reach Georgia from Azerbaijan by way of the South Caucasus Pipeline (SCP), which transports gas from the Shah Deniz field parallel to the route of the Baku-Tbilisi-Ceyhan (BTC) crude oil pipeline from Azerbaijan through Georgia to Turkey.

How many BCM of natural gas is transported to Armenia and Georgia?

In 2019, the pipeline transported 1.94 bcm of natural gas to Armenia and 0.17 bcm to Georgia. Georgia's internal market receives gas through the East-West and North-South Main Gas Pipeline systems, consisting of the Kazbegi, Kakheti, Southern, Ajara and Poti branches.

Which countries have pumped energy storage capacity?

Europe and China are leading the installation of new pumped storage capacity - fuelled by the motion of water. Batteries are now being built at grid-scale in countries including the US, Australia and Germany. Thermal energy storage is predicted to triple in size by 2030. Mechanical energy storage harnesses motion or gravity to store electricity.
