

Who produces electricity in Tunisia?

State power utility company STEG controls 92.1% of the country's installed power production capacity and produces 83.5% of the electricity. The remainder is imported from Algeria and Libya as well as produced by Tunisia's only independent power producer (IPP) Carthage Power Company(CPC),a 471-MW combined-cycle power plant.

What are Tunisia's energy projects?

One third of the projects will be for wind farms and two thirds for solar photovoltaics. Tunisia's national grid is connected to those of Algeria and Libya which together helped supply about 12% of Tunisia's power consumption in the first half of 2023.

What drives Tunisia's energy transition?

Three key drivers will dictate Tunisia's energy transition: energy security,given Tunisia's growing energy balance deficit; economics,given the relative decrease in the price of renewables; and environment,given the Country's commitment to reduce domestic greenhouse gas emissions.

What percentage of Tunisia's electricity is renewable?

In 2022,only 3%of Tunisia's electricity is generated from renewables,including hydroelectric,solar,and wind energy. While STEG continues to resist private investment in the sector,Parliament's 2015 energy law encourages IPPs in renewable energy technologies.

How much power does Tunisia produce?

Tunisia has a current power production capacity of 5,944 megawatts(MW) installed in 25 power plants,which produced 19,520 gigawatt hours in 2022. State power utility company STEG controls 92.1% of the country's installed power production capacity and produces 83.5% of the electricity.

What does Voltalia do in Tunisia?

Anyango, Anita (2024-05-13). "Voltalia wins contract for 130 MWp solar power project in Tunisia". Pumps Africa. Retrieved 2024-06-04. The Government of Tunisia is taking steps to diversify its energy generation mix by bringing on hydropower and solar energy.

En mobilisant 40 millions de dollars américains, Power Tunisia vise à soutenir près de 2 000 entreprises tunisiennes dans l'adoption de solutions énergétiques propres.

The Kairouan Solar Project, Tunisia's first large-scale solar initiative, significantly boosts the country's renewable energy capacity by providing 100 MW of solar power to the national grid. This initiative, part of ...
