Do you need a Tesla Powerwall?

In areas with enough sun, Tesla Powerwalls can also be used to make a home self-sufficient so that it can go completely off-grid. You may want multiple Powerwalls in this scenario to ensure you always have plenty of backup power if you are aiming to achieve energy independence.

What can I do with my stored energy?

You can use this energy to power the devices and appliances in your home day and night, during outages or when you want to go off-grid. With customizable power modes, you can optimize your stored energy for outage protection, electricity bill savings and more.

Can energy storage systems be used solely for backup purposes?

SGIP prohibits energy storage systems from being used solely for backup purposes. The system must "cycle" (charge and discharge on a regular basis) to meet some of your onsite electrical needs.
