

How much does a tewaycell battery cost?

Last quote I got from Docan was \$131.25/cell shipped out of China and \$147/cell shipped out of Houston. That compares with the current price on AliExpress for the cells I purchased from Tewaycell Battery Store which is \$143.41/cell shipped out of China.

What voltage is tewaycell battery at?

Currently at 3.25v. I'll let you know later today what it tested out at. Collecting Parts! Tewaycell battery capacity test finished and the results are.... So,very happy with these cells. They are all brand new,Grade A,with EVE QR codes in tact. Would I personally buy from them again...?

Does tewaycell support mains?

Supporting mains,while simultaneously charging the batteries during the day works smooth. Only,when drawing too much loads,the system shuts down (only for a few seconds),and restarts by switching to mains support (I still need to fine tune settings more,and might need to liaise with Tewaycell support member Edith).

Is tewaycell a good seller?

Hi guys, I am looking to purchase (for now) 8 280ah cells. So I did some looking around on Aliexpress.. and yes I know there are a lot bad sellers out there. BLS seems trustworthy and ship from Germany so short shipping time but they seem pricy. TEWAYCELL had decent prices and has a 5 star rating from over 500 reviews..

Are tewaycell cells swollen?

There are many people that have gotten very slightly swollen cells from reputable companies. These cells do not look all that bad,but I won't make a judgement on their quality. Although I purchased cells from Tewaycell,I do not condone their practice of selling these as 310ah (or 320ah at other stores).
