

Why should you choose Enphase Energy System for off-grid living?

Embrace the freedom of off-grid living with the power and reliability of the Enphase Energy System. Offering complete independence from utility infrastructure, our new Off-Grid configurations feature intelligent IQ8 Microinverters, state-of-the-art IQ Batteries, and integrated Generator Support.

How do I get Enphase certified for off-grid installations?

Get certified to partner with Enphase for Off-Grid installations. Use the Enphase Design Review service in the Enphase Installer Portal to ensure Off-Grid systems are correctly designed. Reach out to offgridsupport@enphaseenergy.com for a coupon code that allows design review for free.

Does the Enphase Energy System provide all-day backup?

In this configuration, the Enphase Energy System provides all-day backup using IQ8 Series Microinverters and IQ Batteries. The system must have at least 10 kWh of IQ Batteries installed. Depending on the IQ Battery sizing, the system will be able to sustain off-grid operation for extended periods of time.

How does a solar system go off-grid?

If your system has backup capability, it goes off-grid seamlessly by disconnecting from the utility grid and providing power from the solar panels or battery to your home. This can happen either automatically or manually. Automatically, when power from the grid is unavailable or unstable. Why go off-grid manually?

What is Enphase power control?

Enphase Power Control ensures a stable microgrid and prevents excess power backfeed into the generator. How much power and storage capacity does each IQ Battery 5P offer? Each IQ Battery 5P offers 3.84 kVA of power with 5 kWh of capacity. How much total storage capacity can an Off-Grid system have?

What is Enphase IQ battery?

The Enphase IQ Battery all-in-one AC-coupled storage system is reliable, smart, simple, and safe. It has a total usable energy capacity of up to 10.08 kWh and multiple embedded grid-forming microinverters with a 3.84 kW power rating.
