

Will a new solar plant increase energy demand in the Gambia?

Energy demand in The Gambia has increased by 5.5% per year in recent years and today's connection of the new 23 MWp solar plant to the national energy grid will significantly increase Gambia's current generation capacity of 98 MW and enable electrification of rural areas. A strong commitment

Why should the Gambia invest in solar energy?

To match the rising demand and to provide sustainable and accessible energy to all Gambians, the potential for solar energy investment is immense in The Gambia. The government of The Gambia seeks to increase RE's contribution to 40% from 2% presently in the coming years.

Who is GAM-solar energy & engineering?

Meet the Team : GAM-Solar Energy & Engineering Co. Ltd. is the leading solar energy company of The Gambia. Registered in May 1998, our team has vast experience and has always been a stand-out in the country's solar business sector and helping the Gambian people and beyond get access to clean potable water and electricity via Solar Energy.

Who is GAM solar energy & engineering?

Gam-Solar Energy & Engineering Co. Ltd. is one of the foremost renewable energy companies located in The Gambia. The solar power company was established in 1998 and has been focused on extending the general public's usage of the sun's energy through its marketing of the latest technologies in energy efficiency.

Is Gambia ready for a new era of renewables?

Gambia: strong international support for a new era of renewables with inauguration of historic 23 MWp solar plant. A significant strategic project with strong substantial economic and social impacts, the recently inaugurated solar photovoltaic plant in Jambur is poised to supply electricity to approximately 18,500 households.

Why is NAWEC launching a solar plant in the Gambia?

This marks the first time in the Gambia's history where a utility scale solar plant of 23 Megawatts Solar PV capacity and 8-Megawatt hours battery storage is being commissioned. This solar plant allows NAWEC to finally shift away from expensive heavy fuel oil-based generation which is costly and harmful to the environment.

The Gambia entered a new era of energy development in April 2023 with the inauguration of its first large-scale solar energy facility in Jambur. Built by Chinese manufacturer Tebian Electric Apparatus, the 23 MW solar ...

GIEPA welcomes proposals for investment projects in the Solar Energy sector. The Gambia is highly

competitive in its solar potential compared to regional competitors Solar Irradiation (Average daily solar irradiation in kW/m²; 2021, ...

Wagner Solar Gambia is a beacon of sustainability in the region, distinguishing itself as one of only three enterprises capable of harnessing solar power to bring clean energy solutions to ...

Gam-Solar Energy & Engineering Co. Ltd. is one of the foremost renewable energy companies located in The Gambia. The solar power company was established in 1998 and has been focused on extending the general public's ...
