

Who are Sunova solar & thornova solar?

Sunova Solar and Thornova Solar are Tier 1 players, focusing on energy solutions and the design and manufacture of renewable energy components, such as photovoltaic modules, solar cells, inverters and solar battery storage solutions.

Who is thornova solar?

Thornova Solar, based on the Norse pantheon hero Thor, represents perfectly the company values and is hence a valued namesake. As the ever-growing, innovative and expanding company that we are, we will standardise our branding globally, reflecting our core values in our brand name.

Will thornova solar continue to provide technical support?

For time being until we do the full transition to Thornova Solar, you will receive official quotations and invoiced under the Sunova Solar brand. We will continue to provide the best technical support for your purchased Sunova Solar, co-branded and later Thornova Solar products.

Why are Sunova solar & thornova solar co-existing?

In the coming months, our two brands --Sunova Solar and Thornova Solar-- will co-exist in our corporate communications as a reminder of our origins, an expression of our development, and a confirmation of our commitment to our customers to provide the on-going best technical support.

Is thornova a good solar panel company?

Newcomer status: Established in 2022, Thornova is a relatively new company in the solar panel market. While they've achieved Tier 1 ranking, a longer track record can provide more confidence for some consumers. ?
Limited independent reviews: Due to being new, there are fewer independent reviews available compared to more established brands.

Where are thornova solar panels made?

While having manufacturing capacities in Vietnam, Thornova strategically focuses on the North America markets. Their power output ranges from 400W to 720W, while their efficiency generally floats from 20.5% to 23.2%. Thornova solar panels are backed up with a 15-25-year product and 25-30-year performance warranty.
