

Who is Energon?

ENERGON -- We develop and supply energy storage and power generation solutions since 1998. More than 20 years of development history allows us to provide an individual approach in solving a wide range of tasks in the energy sector. Industrial rechargeable batteries, solar modules & solutions on their basis are in our focus.

How will Jatropa impact Timor-Leste's energy sector?

To have a meaningful impact on the energy sector, the government of Timor-Leste will need to look at Jatropa programs that are capable of providing a uniform fuel type throughout the country, thus one of the programs-- B5 through B20--for biodiesel.

How much energy can Timor-Leste generate?

The final report was delivered in May 2010, and it estimated the nationwide hydro-electric generation potential at 252 MW, rising to 352 MW if pumped storage is applied. National wind energy generation capacity was estimated at 72 MW, bringing the total potential for installed renewable energy capacity in Timor-Leste to 451 MW.

What is rural energy policy in Timor-Leste?

A key objective is to ensure that the implementation of the government's rural energy programs provides equitable distribution of benefits. In Timor-Leste the Secretary of State for Energy Policy is responsible for the design and implementation of the government's rural energy program.

What is Timor-Leste's energy policy?

In the context of Timor-Leste, part of the policy is promoting the use of renewable energy resources that are indigenous to rural locations and are environmentally benign. Another key part is promoting programs that replace fuel-wood with modern liquid fuels that are cleaner to handle and produce fewer harmful emissions.

Will Timor's 'Timor Trough' lead to a pipeline?

Timor does not currently have the onshore refinery facilities for the project, but the biggest roadblock is a 3000-metre-deep trench (the 'Timor Trough') that sits in between the field and its shorelines. The trough poses a major engineering challenge for any pipeline that would lead to Timor's south coast.

"Beyond Timor-Leste, we look forward to receiving news on the awards of licences we applied for in the Philippines. As ever, we will continue to explore new venture initiatives in the wider Southeast Asian region as we ...

Located 150 kilometers south-east of Timor-Leste and 450 kilometers north-west of Darwin, Australia, the gas-rich Greater Sunrise field area offshore fields have been sitting undeveloped for years in part due to maritime ...

"Partnering with Corinthian is a fantastic opportunity to work together to ensure local capacity and the transfer of technology across both Australia and Timor-Leste for sustainability. Through ...

In Timor-Leste's post-conflict society, the government's pursuit of electrification to improve social cohesion through enhanced communication is an understandable initial driver ...
