

How much gas does Transnistria owe Gazprom?

Transnistria currently owes Gazprom more than \$7bn for gas under the current scheme. The difference in energy rates on either side of the Dniester is striking: while in Moldova the price is over \$1,000 per thousand cubic metres of gas, the Moldovan Metallurgical Plant and other Transnistrian companies pay around \$168.

Which military forces are stationed in Transnistria?

Three military forces are stationed in Transnistria: in addition to the Russian peacekeeping force and the region's own army, there are soldiers from the Operational Group of Russian Troops (OGRF). Russian peacekeepers have been stationed in Transnistria on the basis of a 1992 agreement between Moldova and Russia.

Who fires RPGs in Transnistria?

25 April: unknown men fire RPGs at State Security building in Tiraspol, Transnistria. Three military forces are stationed in Transnistria: in addition to the Russian peacekeeping force and the region's own army, there are soldiers from the Operational Group of Russian Troops (OGRF).

Are Transnistria's armed forces bigger than the OGRF?

Transnistria's owned armed forces - comprising four motorised rifle brigades - are larger than the OGRF. The total number of troops is not known, but estimates vary from between 7,000 and 15,000 personnel. Together, the OGRF and the Transnistrian forces have small arms, Soviet-era armoured personnel carriers, mortars and anti-tank artillery guns.

What makes Transnistria a competitive country?

The competitiveness of Transnistria's enterprises is mainly ensured by low gas prices. For years, the Russian state company Gazprom, through a Moldovan subsidiary, has supplied gas to Transnistria without requiring payment. Transnistrian businesses and households pay for Russian gas at tariffs well below market rates.

The Cuciurgan power station (Romanian: Termocentrala de la Cuciurgan, Russian: Moldavskaya GRE`S, romanized: Moldavskaya GRES), the largest power station of Moldova, is located in Dnestrovsc, Transnistria, on the shores of the Cuciurgan Reservoir bordering Ukraine. Commissioned on 26 September 1964, the facility produced as of 2021 about 79% of Moldova's electricity.
