TSMC Solar - who we are Whether you're a distributor, installer, integrator or investor, if you aspire to long-term profitable growth in the solar-energy industry, you need a professional partner that understands your requirements and can be there when you need them with the right high-quality products and with exemplary customer service - today and in the future.

CIGS thin-film module manufacturer, TSMC Solar has boosted its champion module efficiencies to 15.1%, a 0.9% increase barely five-months after reporting efficiencies of 14.2% in September, 2012.

TSMC plans to cease its solar manufacturing operations and will use existing solar inventory in other TSMC buildings. Source: TSMC TSMC says despite its world-class conversion efficiency for copper, indium, gallium and selenium (CIGS) technology, it is not a viable business for the foundry even with an aggressive cost reduction plan.

Building a trusted service California Generators, Inc. a Southern California Electrical - Solar - Generator Full Service Company. We are a group of Electrical, Solar and Generator professionals that bring a tremendous variety of expertise to the table.
