

Can Tunisia build a large-scale solar project?

Tunisia's Ministry of Industry, Mines and Energy has kicked off a new procurement exercise for large-scale solar. Tunisia's Ministry of Industry, Mines and Energy has launched a tender for the construction of several large-scale PV projects with a combined capacity of 200 MW.

Does Tunisia support solar?

Tunisia is supporting utility-scale solar through a series of tenders, the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019. The country's cumulative installed PV capacity stood at just 506 MW by the end of 2023, according to the International Renewable Energy Agency (IRENA).

What is Tunisian Solar Program?

Tunisian Solar Programme, launched in 2005, is a joint initiative of UNEP, Tunisian National Agency for Energy Conservation, state-utility STEG and Italian Ministry for Environment, Land and Sea. The program aims to promote the development of the solar energy sector through financial and fiscal support.

What is the productivity of PV solar systems in Tunisia?

With these favourable conditions, the productivity of PV solar systems in Tunisia is very high. According to IRENA's Global Atlas, annual electricity production by PV solar systems varies between 1 450 kWh per kilowatt-peak (kWp) in the northwest region and 1 830 kWh/kWp for systems installed in the extreme southeast region.

When do solar projects start in Tunisia?

Interested developers have until Jan. 15 to submit their project proposals. Tunisia is supporting utility-scale solar through a series of tenders, the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019.

Where is the first large scale solar power plant in Tunisia?

The first large scale solar power plant of a 10MW capacity, co-financed by KfW and NIF (Neighbourhood Investment Facility) and implemented by STEG, is in Tozeur. TuNur CSP project is Tunisia's most ambitious renewable energy project yet.

The "Collective Prosol Programme" in Tunisia is gaining momentum. The National Agency for Energy Conservation (ANME) started the subsidy programme for solar thermal installations in ...

European renewables developer Qair will build a 10 MW solar plant in western Tunisia with a EUR3.9 million (\$4.2 million) loan from the European Bank for Reconstruction and ...

Using this solar cooling installation with an average solar fraction SF of 0.54 and an auxiliary gas burner releasing 0.2 kg/kW h and 1 kW electricity consumption, the CO2 emissions are 413 ...

The Mall of Sousse, opened in November 2019, occupies over 130,000 square meters strategically located in Kalâa Kebira, Tunisia. This major commercial center boasts a diverse ...

The Tunisian government said that it has renewed the financing mechanism for its two national residential solar programs. National utility Société Tunisienne d'Electricité et de ...

A 25% additional bonus on the cost of the material investment, with a limit of 150 DT / m² for collective solar installation projects. A 10% additional bonus on the cost of the material ...

GAMCO ENERGY accompanies you to realize your energetic autonomy by taking advantage of the Photovoltaic Solar Energy in Tunisia to produce your own electricity. Solar Energy Today, you can harness the solar energy in many ...

Increased Property Value: Commercial properties with solar installations often have higher resale values. If you ever decide to sell your business or property, you can benefit from the increased property value and attractiveness to ...
