

What is jolt doing in 2020?

In 2020, JOLT completes the successful test run with the prototype. In cooperation with EG Group, ESSO and ADS-TEC Energy, JOLT launches its first ultra-fast charging service in Hamburg. JOLT Energy receives a 150 million Euro investment from InfraRed to build an urban ultra-fast charging network.

How many followers does jolt energy have?

JOLT ENERGY | 5,157 followers on LinkedIn. Bringing Ultra-Fast Charging Downtown | JOLT's mission is to bring ultra-fast charging downtown, providing convenient, easy-to-use and accessible fast-charging services for e-cars in major European and North American cities.

How much does jolt charge?

JOLT offers several charging tariffs. JOLT customers can charge for as little as EUR 0.65/kWh as of September 2024. JOLT also accepts almost all common charging cards from other providers (respective tariff conditions apply). How can I pay?

What is Jolt Energy Storage?

Jolt was founded by a team of passionate experts and researchers who have set out to revolutionize the field of energy storage. What began as research to make li-ion batteries safer has now given birth to energy storage materials that could change the way we store and transport energy across the grid.

How does jolt work?

Jolt's innovative approach involves creating urban micro-charging parks with 2 to 4 charging points at high-traffic locations, achieving high speeds of up to 300 kW without expanding the grid by using integrated battery storage systems.

Why should you partner with Jolt energy?

Partnering with JOLT ENERGY can be a solution to provide excellent reliable and smart charging facilities. JOLT's innovative battery-buffered technology enables seamless connection to the existing low-voltage grid, eliminating the need for costly grid upgrades.

1 ??· Attractive Pro Plan: Ultra-fast charging from EUR 0,45/kWh at night and EUR 0,49/kWh during the day, with a low monthly base fee of just EUR 5,99. Easy Booking via JOLT App: The Pro Plan is ...

With a firm commitment to star ahead of the ultra-fast charging industry standards, JOLT Energy, a pioneering charge point operator, aims to expand its network while simultaneously incorporating greater power.

JOLT is a charge point operator (CPO) that brings ultra-fast charging solutions to cities worldwide. Thanks to

a charging capacity of up to 320 kW, JOLT's infrastructure can electrically charge vehicles for up to 100 km in just five ...
