

What is the Virgin Islands Energy Office?

The Virgin Islands Energy Office (VIEO) is focused on promoting sustainable energy policies in the Virgin Islands through clean energy production and distribution, energy efficiency, transportation, and energy consumption. It achieves this through outreach, financial incentives, training, and technical assistance.

Why should the US Virgin Islands own solar assets?

The US Virgin Islands should invest in solar assets for enhanced portfolio diversification and risk mitigation. WAPA ownership guarantees coverage by WAPA and FEMA during natural disasters, eliminating uncertainties (1. Enhanced Portfolio Diversity: WAPA diversifies its energy portfolio, ensuring a more resilient and sustainable future).

Will St John be the first state to be fully powered by solar?

St. John is poised to be the first state or territory to be fully powered by solar energy. The government expresses unwavering confidence in WAPA's ability to maintain these assets and extends heartfelt gratitude to VIElectron and Honeywell for their transformative contributions.

2 ???&#0183; ST. CROIX -- Officials cut the ribbon at the Petronella Solar Farm on Tuesday, bringing a new wave of renewable energy to the island, which is experiencing rolling blackouts due to a fuel shortage.

Energy Snapshot U.S. Virgin Islands This profile provides a snapshot of the energy landscape of the U.S. Virgin Islands (USVI)--St. Thomas, St. John, ... o Mandatory installation of energy-efficient solar water heating systems on all new construction and government buildings by 2020. Also in 2009, the Virgin Islands Energy Office (VIEO) appro-

2019 US Virgin Islands Code Title 12 ... To accelerate the growth of a commercially viable solar energy industry to make this system available to the public as an option that can reduce the fossil fuel consumption and costs to the Government, each government agency and instrumentality, including all branches of government, shall install solar ...

DOE and NREL technical experts worked with the Virgin Islands Water and Power Authority (WAPA) Office, the Virgin Islands Energy Office, and other USVI stakeholders to identify the best combination of wind, solar, waste-to-energy, landfill gas, and energy efficiency technologies for the USVI to meet its aggressive clean energy goal.

BMR Energy's Spanish Town facility on St. Croix has more than 16,000 solar panels. (Source file photo) Editor's Note: This article is the last in a four-part series looking at the the V.I. Water and Power Authority, its past failures and challenges, and its more recent efforts to build a more affordable, reliable and modern grid.

United States Virgin Islands: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

The acquisition of these assets by the U.S. Virgin Islands Water and Power Authority (WAPA) underscores a commitment to a resilient, diverse, and environmentally responsible energy future. Top 10 Reasons for the US Virgin Islands to Own Solar Assets: 1. Enhanced Portfolio Diversity: WAPA diversifies its energy portfolio, ensuring a more ...

The adjoining solar facilities will provide a total of 140 MW solar capacity. The solar-plus-storage system is expected to fulfill 30% of the islands' energy consumption needs. According to the Department of Energy (DOE), the ...

Caribbean Solar Company is honored to have earned the Best Solar Supply on St John 3 years in a row. Cast your vote for the Best of VI here. As the leading solar provider on St. John, we are dedicated to making solar attractive and accessible to residents and business owners in ...

The U.S. Virgin Islands is taking significant strides toward a sustainable and resilient energy future, primarily through the implementation of ambitious renewable energy projects. These initiatives are set to reduce dependence on fossil fuels, lower electricity costs, and enhance energy security for the islands' residents. Solar and Battery Storage Initiatives One of ...

CHARLOTTE AMALIE -- As part of his commitment to transitioning the U.S. Virgin Islands to renewable energy sources, Governor Albert Bryan and the Virgin Islands Energy Office (VIEO) will begin taking applications tomorrow for the Solar+ Financing Pilot Program (SPF). ... Selected applicants will receive a 15-year loan with an annual interest ...

Selected applicants will receive a 15-year loan with an annual interest rate of 1% to install an approved solar energy system tied into the territory's power grid. ... Gilbert and covers U.S ...

The U.S. Virgin Islands (USVI), part of the Leeward Islands of the Lesser Antilles, became a U.S. territory in 1917 and is located in the Caribbean Sea, about 1,100 miles southeast of Miami, Florida. 1,2 The USVI has no fossil energy reserves, but does have some renewable resources, particularly solar energy. 3,4,5 The USVI imports petroleum products to ...

Since 2017, we've exceeded our goal of installing TWO MEGAWATTS of solar territory-wide. That's a lot of positive energy! Plus, we've donated a matching 100 percent of our marketing budget to local non-profit organizations and community projects that focus on strengthening energy resilience and sustainability.. We believe that by taking actionable steps toward a ...

The fact sheet describes how financial support from DOE and technical assistance from DOE's National

Renewable Energy Laboratory enabled the U.S. Virgin Islands to realistically assess its clean energy resources and identify the most viable and cost-effective solutions to its energy challenges--resulting in a \$65 million investment in solar ...

U.S. Virgin Islands. Primary Contact for State Adoption. Karl Knight. Director. Energy Office. Number 45 Estate Mars Hill Frederiksted, VI 00840 United States (340) 773-1082. Karl.Knight@eo.vi.gov. Secondary Contact for State Adoption. ... In 1990 the Virgin Islands Energy Office (VIEO) initiated a review of the Draft Virgin Islands Code for ...
