

How old was Ulysse Nardin when he started making watches?

In 1846, at the young age of 23, Ulysse Nardin (above) established his own watchmaking workshop in his hometown of Le Locle, where the eponymous company is still headquartered today. Ulysse Nardin's early output included pocket chronometers, minute repeaters, and other high-complication timepieces.

What is Ulysse Nardin doing now?

As it sails resolutely past its 175th anniversary and toward its bicentennial, Ulysse Nardin has rededicated itself to the twin goals of honoring its maritime heritage and remaining at the forefront of modern watchmaking technology, with a renewed emphasis on environmental responsibility in both areas.

Did Ulysse Nardin buy Donzé Cadrans?

In that same year, Ulysse Nardin acquired Donzé Cadrans, a Swiss maker of enamel dials for high-end watches, incorporating that firm's expertise into its own array of horological skill sets.
