

What is a UN-no 3480 lithium-ion battery?

UN-No: 3480 or 3481 Lithium-Ion Batteries and Lithium-Ion batteries contained in equipment or packed with equipment. ADR Special Provisions 188,230,310,636 will apply and Packing Instruction P903,P903a and P903b. For further information,please visit the UNECE website by clicking [here](#).

Can a lithium ion battery be shipped at a state of charge?

Lithium-ion Cells and Batteries (UN3480) must be shipped at a state of charge (SoC) not exceeding 30% of their rated capacity. Cells and batteries at a SoC of higher than 30% can only be shipped with the approval of the State of Origin and the State of the Operator,see Special Provision A331. Lithium Metal Batteries UN3090

How many UN number entries are there for lithium batteries?

This results in six UN number entriesfor Lithium Batteries: UN3481 - Lithium Ion Batteries,Packed With Equipment UN3481 - Lithium Ion Batteries,Contained in Equipment UN3091 - Lithium Metal Batteries,Packed With Equipment UN3091 - Lithium Metal Batteries,Contained In Equipment

Does a lithium battery Mark have a UN number?

Yes. The mark may bear all applicable UN numbers,e.g. UN 3091,UN 3481,to identify that the package contains lithium metal batteries packed with or contained in equipment and lithium ion batteries packed with,or contained in equipment. J. What are the requirements for the telephone number on the lithium battery mark?

Can a lithium battery be shipped on a cargo aircraft?

Lithium Metal Batteries UN3090 Lithium Metal Cells and Batteries shipped by themselves - UN3090 (not contained in or packed with equipment) are forbidden for transport as cargo on passenger aircraft. They can be shipped on cargo aircrafts when packed in accordance with Packing Instruction 968.

Will a UN 3558 vehicle have a sodium ion battery?

UN 3558 Vehicle Sodium ion battery powered Whilst the latest UN Model regulations Revision 23 has been published since June this year,the ADR will not introduce these until January 2025. However,Germany has proposed a multilateral agreement M 354 related to UN 3551 and UN 3552,as yet no other parties have agreed to this.

category of lithium-ion batteries are lithium polymer batteries. Lithium-ion batteries are generally used to power devices such as mobile telephones, laptop computers, tablets, power tools and ...

UN3480 refers to a classification for lithium ion batteries that are not contained in or packed with any equipment. This designation is crucial for shipping and handling these batteries, as they are considered

dangerous ...

View Numatic Lithium Ion Battery UN3480 Black on Viking UK. We offer free shipping on all orders over £30 and free return within 30 days. Shop now. Skip to Content Skip to Navigation. ...

Substance information for UN 3480 - Lithium ion batteries including lithium ion polymer batteries based on the Hazardous Materials Table (Title 49 CFR 172.101) to assist in preparing a risk ...

That, I hope, has given you a basic introduction to the requirements for how to ship Lithium Batteries. Watch out for future posts, where we will take a deeper look at The UN38.3 test, training requirements for IATA, ...

Lithium batteries are classified in Class 9 - Miscellaneous dangerous goods as: o UN 3090, Lithium metal batteries; or o UN 3480, Lithium ion batteries or, if inside a piece of equipment or ...

Lithium-Ion Batteries UN3480 Restrictions. Lithium-ion Cells and Batteries (UN3480) must be shipped at a state of charge (SoC) not exceeding 30% of their rated capacity. Cells and batteries at a SoC of higher ...

Lithium Ionen Batterien UN3480 Lithium Ionen Batterien verpackt mit Ausrüstungen*) UN3481 Lithium Ionen Batterien verpackt in Ausrüstungen*) UN3481 Zellen: ≤ 20 Wh/Zelle ...
