

Inverter and BESS firm Sungrow pointed out to Energy-Storage.news in a recent interview that its latest generation product increased the energy-per-container from 2.5MWh to 5MWh but the max noise emissions went from 79dB to 75dB. Energy-Storage.news" publisher Solar Media will host the 2nd Energy Storage Summit Asia, 9-10 July 2024 in ...

It marks the renewables asset manager"s first direct entry into the standalone BESS market, two months after it invested in storage-focused developer Delorean Power and two years after it bought the rights to a portfolio of behind-the-meter storage systems from Stem Inc. . The front-of-the-meter storage assets are both in New York and have a combined ...

The US battery storage market is struggling to adapt to rising raw materials costs and has reached a "crisis point", Energy-Storage.news has heard. The steep rise in the cost of lithium carbonate in particular means that it"s likely the industry will see a slowdown in new projects in 2022 and possibly next year, Adam Walters, a specialist ...

French utility company Engie has reached a deal, with an equity value of over \$1bn, to purchase Texas-based battery energy storage firm Broad Reach Power.. The sellers were private equity firms EnCap and Apollo. This ...

The passing of the Inflation Reduction Act in August of 2022 included provisions that are significantly impacting the utility-scale battery storage industry. This includes the decoupling of storage from solar projects, allowing for standalone energy storage projects to qualify for Investment Tax Credits (ITC) up to 30%.

The Government of the state of Eritrea has received financing from the African Development Fund (ADF) hereinafter called the Bank toward the cost of Dekemhare Solar PV Project and intends to apply part of the proceeds toward payments under the Contract for Procurement of Design, Supply, and Installation of 30 MW Solar PV Plant, Battery Storage ...

The first is the power generation phase, which includes the design and construction of the 30 MW grid-connected solar PV plant, a 15 MW/30 MWh battery energy storage system, a 33/66 kV substation, and a 66 kV transmission line. This transmission line will be connected to the existing line between East Asmara and Dekemhare.

Swedish wind power pioneer Eolus has made a final investment decision (FID) on a battery storage project in California, its third in the US, with a targeted commercial operation in 2024. The company announced that ...

Energy Dome has signed a contract with Alliant Energy for a 200MWh long-duration energy storage (LDES) project in Wisconsin, which the US utility considers the "first of many." Italy-headquartered Energy Dome holds the IP for its CO₂ Battery, which essentially stores energy through the adiabatic compression of carbon dioxide.

The EPRI Battery Energy Storage Roadmap is the product of a series of working group meetings attended by EPRI Member Advisors and staff to review and assess the relevance of gaps identified in 2020 and compile new gaps that have since emerged. The compilation of gaps included in this document represent challenges that are collectively ...

The announcement comes a week after the African Development Bank (AfDB) agreed to provide US\$50 million to Eritrea to fund the installation of a 30MW PV, 15MW battery energy storage project near Dekemhare. The project, covered by sister site PV Tech, would also require the construction of a new substation and transmission line.

Eritrea is to construct a solar photovoltaic power plant with a battery backup system to address its electricity challenges. The 30MW project will be funded through a \$49.92 million grant from the African Development Bank. ...

The US energy storage industry saw its highest-ever first-quarter deployment figures in 2024, with 1,265MW/3,152MWh of additions. Skip to content. Solar Media. Events. ... Nevada's battery storage sector growth has largely comprised solar-plus-storage hybrid installations, and as regular readers of this site may have noted, that generally ...

Recurrent Energy has closed US\$513 million financing on a battery storage project in Arizona, US, which has a 20-year utility tolling agreement in place. Recurrent, the independent power producer (IPP) and developer subsidiary of Canadian Solar announced today that it has secured the funding for Papago Energy Storage, a 1,200MWh battery energy ...

Wood Mackenzie said this has contributed to a 23% quarter-on-quarter decline in the median cost of grid-scale battery storage systems. Recent market analysis from BloombergNEF found that battery pack prices (including the electric vehicle and stationary BESS markets) fell 14% from 2022 to 2023, reaching an average of US\$139/kWh, a record low.

The energy storage system integrator and energy services provider reported revenue of US\$2.7 billion for its FY2024, which ran until the end of September, and US\$1.2 billion for the fourth quarter in a financial results release earlier this week (27 November). ... Fluence claimed, in a market which it believes will drive "unprecedented growth ...
