

I saw Will had a video where he looked at the Vestwoods 100Ah (mostly positive), but that one did not have Bluetooth, and I don't think it had low temp shutoff. This one apparently has both. I went ahead and ordered one ...

Luxpower SNA 5kw paired with Vestwood 48v 5kw Lithium battery. Initially sold as compatible but had to have a firmware update so not to have it installed as a lead acid battery and continual EPS trips etc. Etc.. The battery doesn't last longer than 2hrs with avg. 15amp/hr consumption. Is there som...

Well, a bit of disappointment. I got the battery down to -3C per the app's ambient and PCB temps. Popped it on the charger for about 15 seconds and it never cut off. The description says this: "Built-in low-temp cut off ...

Bought batteries June of 23 and downloaded this App. It worked but poorly like everyone says. Then the app auto updated in early April of 24 and now is completely non functional. Unable to see any data from my batteries even though I was able to get it to connect to each one. I bought the batteries because they had built in communication, but ...

Description. Intelligent lithium battery, long cycle times, integrated with self-designed BMS which can be widely used in various telecom and energy storage systems such as indoor distribution stations, integrated base stations, edge ...

Downloaded the app and using the battery to charge my Bluetti AC200 Max currently along with solar. Emailed Vestwoods cs asking how to change temp readings from C to F since I couldn't seem to figure it out on my own. Also re how to rename it so it's recognizable, like Vestwood 250ah. Or maybe more accurately, Battery 1. Update 9/28/22

Vestwoods VT48100B: Li-ion Battery System of LiFeO₄ for Communication Base Station Power. The VT48100B is an energy storage module based on Li-ion technology. Suitable for various base stations, it provides intelligent communication interface, high accuracy of current and voltage, advanced algorithm of SOC & SOH -- and is easy to install and ...

Advanced Battery Management System (BMS) with current limiting function. Excellent high-temperature performance. High cycle life and service life. 1C high-performance lithium battery. High energy density and conversion efficiency. Integrated battery management system for enhanced performance. Compatible with most inverters and chargers.

Key Features: Intelligent BMS, multiple real-time protections, timely failure warnings, and user friendly Stronger overcurrent ability and larger capacity to meet daily needs Provides remote monitoring APP and intelligent management of the cloud platform Excellent performance standards, 6000 cycles lifespan Offers wall-mounted and floor installation, easy installation to ...
