

At Teva api we mainly produce chemically-synthesized products. This is where a few components are taken and put in a huge reactor to produce a liquid. ... When very small particles are needed -- below 10 microns for low solubility -- we use multiple knives and a lot of energy to cut and break the particle. This is called micronization ...

The only convent in Wallis and Futuna, it was founded in 2003 by Monsignor Lolesio Fuahea. The Wallis Carmel originally housed only six Carmelite sisters from Samoa. Since construction of the convent designed to accommodate them had only just commenced, they were temporarily housed in Malaetoli and were only able to move into their permanent ...

A wet day is one with at least 0.04 inches of liquid or liquid-equivalent precipitation. The chance of wet days
in Wallis and Futuna varies significantly throughout the year. The wetter season lasts 8.2 months, from
September 29 to June 4, with a greater than 41% chance of a given day being a wet day. The month with the
most wet days in Wallis and ...

Futuna Island is one of the two Hoorn Islands in Wallis and Futuna. It covers an area of 83 square kilometers.
It is an island attached to the Wallis-Putuna Islands in the South Pacific Ocean, which is a self-governing
foreign territory of France. It is called Futuna in French.

In 1991, BNP Nouvelle-Calédonie, a subsidiary of BNP Paribas, established a subsidiary,
Banque de Wallis-et-Futuna, in the territory. Two years earlier Banque Indosuez had closed its branch at
Mata-Utu, leaving the territory without any bank. Following this, the Bank of Wallis-and-Futuna (BWF) with
its head office in Wallis was created in 1991.
