

Iron-air battery technology that uses a water-based electrolyte is being developed by Form Energy. This sustainable device uses the principle of reversible rusting to store energy. The tech will be manufactured at the ...

The lithium-ion battery energy storage unit is the first battery-storage project in West Africa dedicated to frequency regulation and is designed to stabilize Senegal's grid and reduce blackouts. Furthermore, the project will ...

Introducing batteries to support spinning reserves into a solar plant in Senegal brings about West Africa's first battery energy storage system (BESS) project for ancillary services. The Walo storage project will consist of a ...

To accelerate Africa's energy transformation, the World Bank is supporting the West Africa Power Pool (WAPP) through financing for interconnection infrastructure and reforms aimed at developing a regional ...

A 50MW solar PV plant in Togo will be expanded to 70MW capacity, creating West Africa's biggest PV project, while grid-scale battery storage will also be added at the site. The announcement was made ...

"We are delighted to see Neoen expanding fast in Sweden, only two years after setting up our team in Stockholm," said Laetitia Prot, Head of Business Development Sweden in 2023 when construction began. Also Read: ...

Indian EPC firm Sterling and Wilson has won its first large-scale hybrid and energy storage turnkey EPC contract order in Western Africa, including what it believes to be both the largest...

The new Regional Electricity Access and Battery-Energy Storage Technologies (BEST) Project -approved by the World Bank Group today for a total amount of \$465 million-- will increase ...

At ACES, we hold considerable expertise in implementing Solar PV, Energy Storage and BiPV Solar Glass solutions for clients across the African region. Our comprehensive services cover end-to-end solutions, leveraging our in-house ...

The US Agency for International Development (USAID) has announced the launch of the Empower West Africa (EWA) programme, a new US\$73 million commitment under the Power Africa initiative. The EWA is set ...

Africa REN has announced the financial close of its pioneering Walo energy storage project in Senegal. The scheme is the first project-financed photovoltaic solar and battery energy storage system (BESS) to be built in ...

Mali has started construction of West Africa's largest solar plant with the support of Russia's NovaWind - a subsidiary of nuclear energy corporation Rosatom. The 200 MW solar plant will span 314 hectares in ...
