

What is the West Africa Energy Program?

The West Africa Energy Program run by US AID's Power Africa division includes support for five solar projects which will provide about 150MW of electricity, including the Koderi and Nagraongo solar plants in Burkina Faso and a 250MW solar /hydropower hybrid plant in Ghana.

Does West Africa have a low electricity rate?

West Africa has one of the lowest electrification rates in the world, with some 220 million people living without access to power, along with some of the highest electricity costs in Sub-Saharan Africa, according to the World Bank. Addressing those issues will require large amounts of investment.

Is West Africa on the cusp of a regional power market?

"West Africa is on the cusp of a regional power market that promises significant development benefits and potential for private sector participation," stated Charles Cormier, Practice Manager in the Energy Global Practice at the World Bank.

Why does the World Bank prioritize interconnections and regional electricity trade?

"The World Bank has consistently prioritized the development of interconnections and regional electricity trade in order to reduce the costs of electricity and therefore to limit the sector's fiscal burden and to lower costs for businesses and consumers," says Ousmane Diagana, World Bank Vice President for West and Central Africa.

What is the West African renewable power database (warpd)?

The database of the present and future hydro, solar and wind power projects in West Africa developed for this work is named the West African Renewable Power Database (WARPD). It combines information from existing databases, scientific papers, technical project descriptions, newspaper articles and tender documents for future projects.

Where in West Africa is the biggest power generation project?

There are significant power generation projects planned or underway in most parts of West Africa, with regional economic heavyweight Nigeria the most active market and also home to the biggest scheme: the 3GW Mambilla hydroelectric plant.
