The Edwards Aquifer system of Texas is a very productive and highly studied karst aquifer. It provides water for over 2 million people and for agriculture, industry, recreation, and environmental uses, but its sustainable use is challenged by rapidly increasing urban population (expected to double in several decades), climate change (increased droughts and floods), ...

Western Sahara was formerly a Spanish colony, whose sparse population was often cut off from the rest of the world. However, when the Spanish withdrew from the region in 1975, a series of territorial claims and Saharawi nationalist activity conspired to make Western Sahara a territory where freedom from colonial rule was not to be achieved without a struggle.

Last week, Edwards said it was exercising its option to acquire Israeli company Innovalve Bio Medical to advance its early-stage transcatheter mitral valve replacement (TMVR) business. In an official filing with the US Securities and Exchange Commission, Edwards said it expects to pay around \$300m in cash at the closing of the acquisition.

Megalakes in the Sahara? A Review - Volume 90 Issue 2. The Sahara was wetter and greener during multiple interglacial periods of the Quaternary, when some have suggested it featured very large (mega) lakes, ranging in surface area from 30,000 to 350,000 km<sup>2</sup> this paper, we review the physical and biological evidence for

these large lakes, especially during the African Humid ...
