Silica aerogels are widely used in many fields for thermal insulation, such as building insulation, electric power energy, energy storage systems, and high-temperature thermal protection due ...

View the profiles of professionals named "Xinpeng Wei" on LinkedIn. There are 40+ professionals named "Xinpeng Wei", who use LinkedIn to exchange information, ideas, and opportunities.

Being layer structured compounds containing the multi-valent Ti element and highly conducting to electrons,  $\text{Ti}_3\text{C}_2\text{T}_x$  MXenes are expected to offer redox activities for charge (energy) storage.

Dielectric capacitors with high power density and excellent temperature stability are highly demanded in pulsed power systems. AgNbO<sub>3</sub>-based lead-free antiferroelectric ceramics have ...
