

How many locations does Yazaki have?

With 619 strategically-located facilities, Yazaki's global footprint makes it possible for us to ensure that we meet growing production demands and critical logistics requirements for our customers around the world.

Who is Yazaki Electric Wire Corporation?

Established as Yazaki electric wire corporation in 1963 and changed its trade name in 2012. (055)924-2230
General plastic wire, polyethylene wire, power cable, communication cable, fire-resistant/heat-resistant/disaster prevention cable, ecology cable, branched cable (Yazaki branch) (0550)89-1811

Why is Yazaki a 'decommoditization & returning to the origins'?

Under the slogans of 'Decommoditization' and 'Returning to the origins of YAZAKI,' production and sales development are united to continue internal business expansion and new business challenges. As the energy society changes, this is an opportunity to develop products that optimally utilize diverse energy sources.

What is a Yazaki absorption chiller-heater?

A Yazaki absorption chiller-heater, using water as the refrigerant, is today's best choice in air conditioning for protecting the environment and reducing the cost of energy. Capacities of 5 through 200 RT are available to either cool or heat installations such as schools, offices, hospitals, industrial facilities, and hotels.

Why should you choose Yazaki?

Yazaki has the expertise and resources to optimize power and data delivery in the more capable, feature-rich vehicles demanded by today's auto consumer.

At Yazaki Energy, we specialize in the professional installation of energy-efficient systems for commercial and industrial applications. Our experienced team ensures seamless integration of cooling systems, cogeneration units, and energy storage solutions, helping businesses improve energy efficiency, reduce costs, and minimize their carbon ...

Explore Yazaki's water-fired piping systems, designed for fuel switching, biomass integration, carbon neutral cooling, and waste heat recovery solutions. ... Yazaki Energy Systems, Inc. 542 Haggard Street, Suite 502 Plano, TX 75074-5562 Phone: (469) 229-5443 Fax: (469) 229-5448

CH-KGST saves energy by utilizing waste heat such as exhausted steam from the factory and cogeneration system. 1. Cooling capacity of 105~211kW is now available. ... Yazaki's original steam input control system enables it to prevent affection to other steam requiring equipment.

Focused on electric power, communication and general-use wire and cable, gas meters and related equipment, taximeters, air conditioning, solar and other environmental system equipment, Yazaki Energy System Corporation provides ...

By utilizing waste heat, our systems maximize energy efficiency while reducing operational costs. In addition, our thermal chillers and non-electric chillers provide effective process cooling, ensuring optimal performance without the need for electric power. ... Yazaki Energy Systems, Inc. 542 Haggard Street, Suite 502 Plano, TX 75074-5562 ...

Yazaki Energy System. Click here for company information. Carbon Neutral Equipment In-vehicle Systems Equipment Electric Wire Gas Equipment. Latest News. All Release News Other. 2024-12-16. News. Comments on the Reports of Our Company's Tax Status ...

Yazaki Energy Systems Inc | 246 followers on LinkedIn. A Corporation in Step with the World. A Corporation Needed by Society. | Yazaki Energy Systems, Inc. (YESI) is a global leader in the manufacture of non-CFC based absorption chillers and chiller-heaters. Our gas-fired chiller-heaters can provide cooling or heating, while using much less electricity than a typical electric ...

Since the sales of the "LP10," the first commercialized LP gas meter in Japan, in 1963, Yazaki Group has been providing equipment and services for the safe use of gas, an indispensable source of energy for our lives. ... Yazaki Energy System Corporation Gas Equipment Operations 23 Futamatacho Minamikashima, Tenryu-ku, Hamamatsu City ...

Discover Yazaki Energy's professional installation services for energy-efficient systems like cooling systems, cogeneration, and energy storage solutions. Learn how our expertise ensures smooth, reliable installations for your energy needs.

Yazaki's Thermal Solutions We will contribute to the reduction of CO₂ emissions and the realization of a carbon-neutral society by converting previously unused "heat" into "chilled water" and proposing various types of cooling applications.

Yazaki Energy Systems is proud to partner with Carrier Commercial Building Services on this project to meet the challenge of providing reliable cooling for a critical hospital application. Yazaki Energy Systems, Inc. 701 East Plano Parkway, Suite 305 Plano, TX 75074 Phone: (469) 229-5443 Fax: (469) 229-5448 Email: yazaki@yazakienergy

Water Fired SINGLE-EFFECT Chiller or Chiller-heater Yazaki water-fired SINGLE-EFFECT chillers (with cooling capacities of 5 to 100 tons of refrigeration) produce chilled water for cooling, while chiller-heaters (with cooling capacities of 10 to 30 tons of refrigeration) produce chilled water, but also can provide hot water for heating in comfort air conditioning applications.

Yazaki MG-Series gas-fired DOUBLE-EFFECT chiller-heaters, with cooling capacities of 150 and 200 tons of refrigeration, are designed for commercial applications where chilled water and hot water are used in a central air conditioning system. The condenser is water cooled and heat is rejected through a cooling tower.
