

What is a Younicos battery based energy storage system?

Centrica (UK) Younicos has been selected by Centrica to design and deliver one of the world's largest battery-based energy storage systems. To be completed by winter 2018, the 49 megawatt (MW) lithium-ion system will respond to fluctuations in electrical demand in less than a second, to maintain electric power frequency and stability.

What did Younicos do?

Younicos was a German-American technology company that developed and sold energy storage systems and control software. The company integrated battery technologies, power electronics and control software to create systems that respond to the energy management requirements of power networks of all sizes, including micro-grids.

Did Younicos buy Xtreme Power?

(Prince declined to confirm or deny the \$200 million figure.) Last year, Younicos bought the assets of Xtreme Power, a bankrupt U.S. grid battery maker and control software vendor, adding about 60 megawatts of working projects to its portfolio.

What happened to Younicos & Aggreko?

Sign that greets visitors to Younicos' German offices. Image: Younicos. Energy storage provider and system integrator Younicos has been bought out by Aggreko, a power generation equipment and energy controls supplier.

What happened to Younicos?

In July 2017, Younicos was acquired by Aggreko and is now a wholly owned subsidiary of the Scottish company. In October 2018, Aggreko completed the integration of Younicos into its newly formed Microgrid and Storage Solutions business unit. The name "Younicos" is no longer in use. Y.Cube

How many employees does Younicos have?

Younicos had two primary facilities: Younicos AG in Berlin, Germany, and Younicos Inc. in Austin, Texas. It employed a total of about 130 people as of 2017. The company was founded in Berlin, Germany, in 2005 under the name Solon Laboratories by executives of German solar manufacturer Solon.

The Y.Cube combines lithium-ion battery blocks with a Younicos-engineered power conversion system (PCS) in a customized enclosure, controlled by the company's industry-leading intelligent energy storage software. According to James P. McDougall, Younicos Chief Executive Officer, the Y.Cube represents the next generation of integrated storage solutions. ...

Two Younicos Y.Cubes, portable modular battery containers, have been placed at the Hywind Scotland

onshore substation in Peterhead, Scotland. The purpose of the Batwind storage solution is to explore how a battery can help increase the value of electricity produced, and how a battery can best integrate the wind farm into grid. ...

Younicos has pushed the boundaries of the energy world for more than a decade. In that time they have deployed 220 MW of battery storage capacity in almost 50 projects worldwide. It's been quite a journey! In 2017 Younicos became part of team Aggreko, first as a 100% subsidiary, then as an integral part of our company.

o Speicherpionier Younicos mit allen Mitarbeiter\*innen voll in den weltweit führenden Anbieter von mobilen und modularen Energielösungen integriert o Younicos Batterie- und Energiemanagementexpertise ab sofort in Form des modularen und mobilen „Storage-as-a-Service“ Mietangebot verfügbar

AUSTIN, TX and BERLIN, GERMANY--(Marketwired - Jun 30, 2015) - Younicos Inc. has entered into an agreement with Duke Energy Renewables and Samsung SDI to provide design, engineering, construction ...

To be completed by winter 2018, the 49 megawatt (MW) lithium-ion system will respond to fluctuations in electrical demand in less than a second, to maintain electric power frequency and stability.

Morrison Utility Connections, a major projects Independent Connection Provider (ICP) and part of Morrison Utility Services, has been commissioned to build and connect one of the world's largest and most sophisticated battery-based energy storage systems. Scheduled for completion by summer 2018, the 49 megawatt (MW) lithium-ion system will respond to ...

Statoil now has awarded a contract to Younicos to deliver a 1 MW battery system that will be connected to Hywind Scotland. The storage solution project, named Batwind, will be operational from Q2 ...

Younicos Completes 3-MW Battery Storage System on Kodiak Island Thanks in part to the energy storage system, Kodiak Island generates over 99 percent of its electricity through renewables. Clarion ...

The "base case" typically revolves around optimising energy procurement by reducing connection and peak energy charges. If C&I users deploy storage in conjunction with solar, our battery systems will also help ...

While Younicos-Aggreko has already been offering plug and play battery storage on short term rentals, integrating energy storage with Aggreko's "existing hybrid solar-diesel offering doesn't ...

Europe's "first commercial battery park", a 5MWh lithium-ion battery system that was recently tripled in size to 15MWh, has been used to successfully restart a disconnected power grid in Germany. ... Once the gas

turbine was disconnected, the WEMAG-Yunicos battery park was able to get it up and running again. "This test is proof of the ...

Energy storage pioneer Yunicos has teamed up with Bavarian distribution grid operator LEW distribution GmbH, the Reiner Lemoine Institute and SMA Solar Technology AG to investigate the potential ...

Available globally, customers will pay Yunicos a rental fee for the battery as well as commissioning and decommissioning fees. "The only thing we ask is that once you end the contract, we can keep it on the site for six months because we don't necessarily want to rotate it back into a warehouse but to redeploy it," Yunicos spokesman Phil Hiersemenzel told ...

One of the world's pioneering developers of advanced battery energy storage systems and smart microgrid developers, Germany's Yunicos on July 3 announced it was being acquired by Scotland's Aggreko for GBP40 ...

Yunicos Inc. has entered into an agreement with leading solar power supplier OCI Solar Power to provide a turnkey battery storage system at one of OCI Solar Power's projects in Texas. The system will be the first integrated grid-scale solar-plus-storage project to be deployed in the ERCOT market. o The system is expected come online [...]
