

What is the energy planning roadmap for Zambia?

The publication of this document marks a pivotal step towards a sustainable and diversified power future for Zambia. This comprehensive 30-year electricity planning roadmap will ensure that Zambia is equipped to meet the growing power demands of its dynamic society. Key features of the IRP include:

How can transport save energy in Zambia?

The energy intensity of transport sector in Zambia is 14% higher than the global energy intensity. This presents an opportunity to save energy in the sector. The recommended actions must spur progress in two main areas: Increasing the availability and use of sustainable, low-carbon fuels.

Can battery storage be used with solar photovoltaics in Zambia?

The Zambian regulation foresees customs duty and VAT exemptions for most equipment used in renewable energy or battery storage projects. Detailed information is provided in this section, we discuss the opportunity of battery storage in combination with solar photovoltaics from a financial point of view.

What is Zambia's Electricity Supply Industry like?

The electricity supply industry in Zambia has been dominated by the development of state-owned utility-scale power generation infrastructure by ZESCO. Private sector participation in Zambia's electricity supply industry has been few and far between, only emerging in 2001.

Why is there no power generation infrastructure in Zambia?

For approximately 30 years, no large-scale generation infrastructure was built in Zambia. Between 1977 and 2010, a limited amount of investment was made in new power generation infrastructure. This is because, for several years, the country had an oversupply of electricity and stagnated economic growth, impacting electricity demand.

Why is energy security important in Zambia?

Energy security. The Government of the Republic of Zambia (GRZ) has set ambitious development goals, and energy security is vital to achieving them. The Energy Efficiency Strategy and Action Plan (EESAP), the first in the history of Zambia, with its set of prescribed actions, was developed to support that purpose.
