

What is Zambia's Electricity generation & demand profile?

For a ministerial statement on the status of Zambia's electricity generation and demand profile. Madam Speaker, electricity remains a major source of energy in our country. The Electricity Supply Industry (ESI) in Zambia comprises of power generation plants owned and operated by ZESCO Limited, the national electricity utility.

What is Zambia's Electricity Supply Industry like?

The electricity supply industry in Zambia has been dominated by the development of state-owned utility-scale power generation infrastructure by ZESCO. Private sector participation in Zambia's electricity supply industry has been few and far between, only emerging in 2001.

What is the power generation capacity in Zambia?

Power generation in Zambia is still predominantly hydro based. In 2021, the installed capacity had increased significantly owing to the construction and commissioning of two (02) machines at Kafue Gorge Lower power project. The national installed electricity capacity increased to 3,318.4 from 3,011.2 MW in 2020 as detailed below.

Why is there no power generation infrastructure in Zambia?

For approximately 30 years, no large-scale generation infrastructure was built in Zambia. Between 1977 and 2010, a limited amount of investment was made in new power generation infrastructure. This is because, for several years, the country had an oversupply of electricity and stagnated economic growth, impacting electricity demand.

What is the electricity sub-sector in Zambia?

ELECTRICITY SUBSECTOR This chapter provides information on the electricity sub-sector in Zambia which is dominated by the public utility company, ZESCO Limited, and supported by several IPPs. ZESCO buys power from Independent Power Producers in Zambia and is involved in generation, transmission and distribution.

Is biomass a source of electricity in Zambia?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Zambia: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.
