

Solarworx provides a smart, unique and modular decentralized DC microgrid for rural African communities. Based on state-of-the-art IoT and power-electronic control technology, Solarworx wants to create the next generation of solar home systems and connect the 1.2 billion people around the world living without access to electricity.

Le Solego 80/160 est une solution solaire modulaire pour les ménages et les petites entreprises dans les zones isolées du réseau. Chaque système a une capacité de stockage de 80Wh ou 160 Wh et deux entrées des panneaux solaires de 50W.

Solarworx | 1.032 Follower:innen auf LinkedIn. Bottom-up solar village electrification | We develop second generation, highly innovative off-grid products like modular Solar Home and Business Systems and distribute them via local partners. However, we are also involved in pico and mini grid projects, as we believe only a mix of those products can be a true solution for the ...

Since the initiation of SolarWorX Felix is in charge of product and business development. He previously worked as an environmental engineer for clean-tech companies in the wind and off-grid energy sector. More recently he focused on Solar Home Systems development and management in East Africa and therefore speaks Kiswahili fluently ...
