

Does Zambia export electricity?

Electricity imports and exports in GWh (first half of 2022) As mentioned in the previous chapter, Zambia has developed into an export powerhouse in recent years. This is also demonstrated by the data from the first half of 2022.

Why is Zambia a good place to ship from Germany?

One of the particularities of Zambia, as mentioned earlier, is that the country does not have direct access to the sea. The best port for the shipment of a container of goods or products from Germany or any part of Europe to Zambia is through the port of Walvis Bay, Namibia, because of its shorter distance to Europe.

What products does Zambia export to Germany?

Zambia's leading export products to Germany over these years include copper cathodes, tobacco, ferro-alloys (iron and steel), fresh fruits and vegetables, coffee, cotton, etc. (OECD, sd).

What does the Electricity Act do in Zambia?

The Electricity Act regulates the generation, transmission, distribution and supply of electricity to enhance the security and reliability of electricity supply in Zambia. It codifies the rules on tariff setting and introduces the concept of intermediary power trading, a concept that was missing from the previous regulatory framework.

Is Zambia a copper producer?

Zambia is the second largest producer of copper in Africa and its economy is heavily dependent on copper mining (at least 70% of total exports). Efforts to diversify economic activity or invest revenues from mining to other sectors of the economy have been limited.

Does Zambia need hydropower?

In recent years, Zambia has been able to improve its electricity supply but remains largely dependent on hydropower. This dependency represents a risk to the security of supply, as evidenced by the return of scheduled load shedding at the end of 2022 until February 2023, due to low water levels on the Zambezi River.

The study will develop technical and financial recommendations to implement the power project, which will combine 200 megawatts of solar energy generation capacity with battery energy storage. Zambia currently ...
